PIERCAN USA NEWS 2011/2012

Happy Holiday's to All

I have compiled a quick list of our news from 2011 and would like to share this with all of you. If you have any questions please don't hesitate to call us at 760-599-4543.

In January, **Stan Diniz** was named the **new General Manager**. Jean Perez moved back to France and still works for PIERCAN SA. **Philippe Bourdon** was named **Production Manager**. Alex Votie returned to France as well and also works for PIERCAN SA. In addition, PIERCAN USA hired a new **Quality Manager – Al Shapouri**.

Throughout the year we have been planning and implementing the transition **of DuPont CSM (hypalon) to Tosoh CSM raw material**. This will be complete by January 2012.

We **purchased an additional building** in July, which now houses the majority of the management team, administration, composite dipping line, shipping and receiving. QC and inspection will also be moved to the new building by the end of the year. Our new mailing address is **160 Bosstick Boulevard**.

Another major project has been the development of **our new website**. Same address – www.piercanusa.com, with better purpose and structure. You will see new information and **innovative videos** – plus more to come. You will also find us **on facebook, YouTube, and twitter** is soon to come.

butyl gloves thus saving time and money for shipments of small and large volumes. Another change will be **the color of our polyurethane - from royal blue to a bright yellow**. This will occur sometime in the first quarter of 2012.

Gamma irradiation of glovebox gloves isn't new news but is certainly growing. If you have questions about how this works please call.

Another new product development is our new **SuperHOG** over gloves. Better fit for the larger hands with more room inside. The SuperHOG utilizes a new sewing technique which eliminates most of the bulky seams making it a more comfortable glove and works better with the glovebox gloves.
