## Announcement CLEAR UV Storage Bags

PIERCAN USA is switching to **clear storage/glove bags with UV protection**. The usage of the CLEAR UV Bags is effective immediately for all distribution. Our glove bags will now **be heat sealed**. See the pictures and details below.

Glove part number on outside of bag

Heat seal

### UV Specifications PM11421E63 UV Stabilizer

**PM11421E63** is designed for use in polyolefin systems that will be exposed to sunlight and/or ultraviolet radiation. It contains a stabilizer system which helps protect polyolefins from degradation side effects such as loss of physical properties, discoloration and reduction of useful lifetime.

#### PHYSICAL PROPERTIES

Appearance:	Pellets
Carrier Resin:	Polyethylene
Theoretical Specific Gravity:	0.93

#### HEAT STABILITY

**PM11421E63** is designed for maximum processing temperatures of 550°F (287°C).
