## ANNOUNCEMENT

**12 Y 1532 & 12UY2032  
Hand size marking**

To Whom It May Concern:

Notice to all customers purchasing the 12Y1532 , 12Y2432 or 12UY2032 gloves :

This particular glove has only one hand size. In the past we have marked this glove as the customer or distributor wished with different hand sizes. *The actual hand size is a 9.75A.* We only have one style mold and one hand size.

Because PIERCAN USA has put in place a new accounting and production/inventory system we can only mark these gloves with one hand size. This enables all groups from production to customer service to know our actual inventory of this particular part number.

We started using the new marking in September of 2011. *All 12Y & 12UY gloves are now marked with the 9.75A hand size.*

If you have any questions, please contact your distributor or PIERCAN USA.
