Who We Are

PIERCAN USA was founded in 1948 and expanded to the United States. Both divisions combine to make the world's largest manufacturer of Isolator, Glovebox and Containment gloves. Our glove materials include CSM (formerly hypalon™), Butyl, ESD Butyl, Polyurethane/CSM, Polyurethane/Radiation Shielding/Polyurethane, Neoprene, ESD Neoprene, and Natural Rubber latex. Our goal is to meet and exceed expectations in cost, quality, flexibility, time to market and innovation through continuous process improvement. PIERCAN is dedicated to continually develop new multi-polymer gloves with superior physical properties, puncture resistance and increased sterilization cycles.

Major Markets

DOE Nuclear Labs – USA and U.S. friendly Nuclear Labs, U.S. Military, Electronics – worldwide, Life Sciences – worldwide, Bio-Tech – worldwide.

Services Offered

PIERCAN USA manufactures gloves in the United States and France. Our knowledge and technical expertise guides decision makers to match the appropriate glove material, style of glove and proper sizing with their operations. We offer sterilized gloves with a Certificate of Processing. We also design new molds to customer specifications. Customer Service and Delivery of product is best in class.
