MATERIAL CERTIFICATE

PIERCAN certify that all the gloves and sleeves stamped **H** are manufactured with **latex of natural rubber**. The finished products also contain curing and protective agents.

Material complies with directive RoHS (2015/863/UE)

Max admissible concentration for products listed in the directive are respected.

This material is free of phthalate, recycled materials and chemicals from the SVHC list (Candidade list of Very High Concern) of REACH.

Composants are non-animal origin. In addition, no composant derived from **TSE/BSE** (Transmissible Spongiform Encephalopathy and Bovine Spongiform Encephalopathy) relevant animal species come into contact with the product or the equipment used in its manufacture.

Thus the European Agency's guidance on the risk of transmitting animal spongiform encephalopathy agents via human and veterinary medicinal products (EMEA/410/01) is not applicable.
